Isanovski

Community Operations | User Support | Administration

vlad.isanovski@gmail.com t.me/isanovski x.com/isanovski github.com/isanovski Indonesia, remote (UTC+7)

PROFILE

Remote community operations, user support, and administration professional with five years of combined experience across administration, organizational media, and freelance work, including three years in Web3. Most recently I worked as administrative staff at George Furniture, after leading the media and information division of a university-level regional student association. In Web3 communities I participate as a member and contributor and regularly answer other users' questions. I help teams and projects support their Indonesian-speaking users and community members. Fast learner, accountable, and quick to adapt to new tools, and AI tools are part of my daily workflow. Available to start immediately for full-time, part-time, or freelance work, with flexible hours.

EXPERIENCE

Web3 Community Member & Contributor

Independent | 2023 to Present

- Participate in airdrop and testnet programs across Solana, EVM, and Sui as a member and contributor, and regularly answer other users' questions in project communities.
- Run a standard token safety check before interacting, covering mint and freeze authority, holder concentration, liquidity locks, and honeypot and tax behavior.
- Maintain structured trackers for the programs I follow, covering tasks, deadlines, wallet addresses, and claim status.

Administrative Staff

George Furniture, Indonesia | 2025 to 2026

- Process daily sales transactions and end-of-day reconciliation so records match source paperwork.
- Manage project order intake and brief production in writing. I verify invoices before release and keep orders traceable.

Head of Media & Information Division

Regional student association, university level | 2022 to 2023

- Ran the association's Instagram end to end and acted as first point of contact for public inquiries, routing questions to the relevant division.
- Coordinated a small team and kept a consistent publishing schedule.

Freelance Graphic Designer & Data Entry

Independent | 2023 to Present

- Design layouts and visual assets for print and social media. I also handle data entry and cleanup projects for clients, delivered directly.

WEB3 COMMUNITIES AND PROJECTS

Projects and communities where I participated as a member and contributor during their airdrop campaigns. Sui, Tabi, Walrus, Plume, Caldera, Meteora, Grass, Stork, Tabi Chain, Inco Network, and ORO AI.

SKILLS

Platforms	Discord, Telegram, Instagram, X
Support workflow	Question triage and escalation, ticket queues, CRM-style records
Office & data	Google Workspace, Sheets, Excel (formulas, pivot tables, cleanup), Notion
Design & content	Canva, content planning and scheduling, social media copywriting
Web3	Wallets and approvals, airdrops, vesting and claims, block explorers, token safety checks, DeFi basics
AI tools	Daily AI-assisted research, drafting, and data work, and fast adoption of new software
Languages	Indonesian (native), English (professional written, spoken in development)

EDUCATION

Bachelor's Degree (S1) in Sharia Economic Law

Semarang, Central Java, Indonesia | 2020 to 2027 (in progress)

- Coursework in Islamic finance and banking, Islamic contract law, and economic regulation under sharia principles, with legal research and document analysis.
